

Office Memorandum • UNITED STATES GOVERNMENT

TO : Deputy Director of Training (General) DATE: 21 May 1953
FROM : Chief, Junior Officer Training Division
SUBJECT: Weekly Progress Report -- 15-21 May 1953

1. Plans are being made with [] and PPD to hold group seminar meetings with the field procurement men to discuss the standards and selection processes of the J.O. Program. Round table discussions and actual case analyses will feature the meetings. The hoped-for results are improved mutual understanding, more and better qualified J. O.T. candidates, and relief of discouragement to the field men, which inevitably results from the rejection from testing of apparently desirable candidates. Such a meeting with home-office personnel will be held in the near future.

2. This Office has begun discussions with [] TLO/FI, with the objective of setting up an extended training program similar to that which has been negotiated with the PM Staff.

3. Junior Officer [] is in the process of being assigned to [] on trial with the understanding that upon satisfactory performance during this period, he will be taken on their T/O. [] has been informed that he has been disqualified for the J.O. Program because of his departmental status and must, therefore, be removed from our T/O before the end of his year of probation.

4. Several Offices have indicated interest in the permanent employment of [] who is in the same position as []

5. Interviews were held with four prospective candidates. Files of seven prospective candidates are in the process of review.

6. Action has been requested for the following individual:

25X1

GS-7
